## Looking Forward: A Value-Based Approach to Drug Pricing

Who We Are

## Organization

The NGA Center for Best Practices is a 501(c)(3) and part of our larger organization.

# 2019 NGA Principles for Federal Action to Address Health Care Costs: Balancing Pharmaceutical Access and Cost

Congress and the Administration should foster greater transparency around pricing and payment dynamics

Congress should enhance market competition through accelerated market entry of safe and effective generics and biosimilars

Congress and the Administration should support state flexibility and invest in strengthening state purchasing power to address pharmaceutical costs across programs

The Administration should take steps to ensure best practices and lessons learned from innovative purchasing strategies at the federal and state level are shared

# State Action to Balance Access to Pharmaceutical Innovations and Managing Budget Constraints
