

AT A GLANCE: Kaiser Permanente's Participation in Apple Health and the Children's Health Insurance Program

Enrollment*

MORE THAN
35,000

Kaiser Permanente members are enrolled in Apple Health (Medicaid) and the Children's Health Insurance Program (CHIP) in Washington state.

Membership is composed of:

 **54.6%**
CHILDREN

 **39.3%**
ADULTS

 **6%**
SENIORS
and PERSONS
with DISABILITIES

*Data is current as of April 2020.

Participation

Kaiser Permanente participates in Apple Health in 8 counties in Washington.

Kaiser Permanente contracts with Molina Healthcare to provide care in Clark and Cowlitz counties, on a capitated basis (meaning a fixed payment per member, per month). Kaiser Permanente also contracts with Molina Healthcare as a fee-for-service provider for primary and specialty care in the Puget Sound and Spokane metro areas.

Quality

Kaiser Permanente performs in the National Committee for Quality Assurance (NCQA®) 90th percentile or above** for the following measures:

- Breast Cancer Screening
- Cervical Cancer Screening
- Diabetes: Eye Exam
- Diabetes: BP Control
- BP Control
- Timely Prenatal Visits
- Timely Postnatal Visits

These metrics are based on NCQA's Healthcare Effectiveness Data and Information Set (HEDIS), a tool used by more than 90% of America's health plans to measure performance on important dimensions of care and service.

Telehealth

Kaiser Permanente is a leader in virtual care. Due to COVID-19 and the need to limit transmission of the virus, the usage of telehealth services has increased. Within the Northwest Medicaid population, including Washington state, the combined usage of scheduled telephone visits and video visits has increased over two-fold. In May 2020, Medicaid members in Northwest had approximately 10,000 virtual visits compared to approximately 4,000 virtual visits in January 2020, prior to COVID-19.

**Measures reflect Kaiser Permanente Apple Health performance among all Medicaid plans nationally in 2018.
